2017 Shenzhen University Summer School

“innovative City”

Jul.9th – Jul.18th

Please Join us in Shenzhen!
This summer, Shenzhen University will offer you a 11-days unforgettable experience in Shenzhen.

Shenzhen (Chinese: 深圳) is a major city in Guangdong Province, China and one of the five largest and wealthiest cities of China. The city is located immediately north of Hong Kong Special Administrative Region and holds sub-provincial administrative status, with powers slightly less than a province. Shenzhen's modern cityscape is the result of its vibrant economy made possible by rapid foreign investment since the institution of the policy of "reform and opening" establishment of the SEZ(Special Economic Zone) in late 1979.
Shenzhen University is a public university established in 1983 located in Nanshan district, Shenzhen, Guangdong, China. It is accredited by the State Council of the People's Republic of China and is funded by the Shenzhen Council Government. The student population has grown from the initial 4,000 to 35,000, and degrees we offer range from bachelor to PhDs.

Shenzhen University is regarded as the fastest developing university in China, and also is the 87out of Top 100 Universities ranking in China.
During the 11 days, you will have an onsite experience of China’s higher education, creative industry, rich tradition and its diverse culture. Through our tailored courses, the excursions to location creative enterprises, classical Chinese Yum Cha and the historic places, we believe you will have a fresh new impression about Shenzhen and a wonderful time in China!
